

TUESDAY, SEPTEMBER 16TH

MORNING SESSION

Chair: LÁSZLÓ SZÉKELYHIDI

9:30 – 10:25 PAWEŁ WÓJCIK: **A case of orthogonality equation**

10:30 – 11:00 **Coffee break**

MIDDAY SESSION

Chair: MAREK CEZARY ZDUN

- 11:00 – 11:20 DIVYA KHURANA: Some results on operators preserving and reversing orthogonality
11:25 – 11:45 RAFAŁ STYPKA: Linearity of additive operators approximately preserving Birkhoff-James orthogonality
11:50 – 12:10 BEATA DERĘGOWSKA: One-complemented subspaces of ℓ_∞^n

12:30 Lunch

AFTERNOON SESSION

Chair: ANDRZEJ WIŚNICKI

- 15:15 – 15:35 MARIO KRNIĆ: More accurate Jensen-type inequalities based on the sum of the Lidstone polynomials
15:40 – 16:00 ZDZISŁAW OTACHEL: Jensen-Jessen inequality for convex maps
16:05 – 16:25 ABDELLATIF LALMI: A nonlinear eigenvalue problem including a logarithmic source term
16:30 – 17:00 **Coffee break**

EVENING SESSION

Chair: WOJCIECH JABŁOŃSKI

- 17:00 – 17:20 LENKA MIHOKOVIĆ: Asymptotic expansions techniques in functional equations and inequalities related to means
17:25 – 17:45 TOMISLAV BURIĆ: Application of the asymptotic expansion techniques to the compound means
17:50 – 18:15 Problems & remarks

18:30 Picnic in the park
